## CULTIVATED BLUEBERRIES

Introducing the Common Fields Nursery New Spring and Fall Bargain Prices.  
(A MAIL ORDER NURSERY, INFORMATION ON BACK)

SPRING AND FALL

1963 \* 64 & 1965

### GIANT CULTIVATED BLUEBERRIES

The cultivated blueberries are two and three times as large as a common berry. Once planted last a life time. They are beautiful ornamental bushes reaching 8 to 10 feet in height with a pinkish white, bell shaped blossom in the summer that turns to coppery red in the Fall. An improvement in every home planting.

### SELECTING THE SOIL

The ideal blueberry soil is well drained and aerated acid. Any soil in which wild blueberries grow is satisfactory for the cultivated crop. Any moist, sandy loam can be made in to a good blueberry soil with the addition of sulphur aluminum sulphate, sawdust, apple pomace, rotted wood and acid peat have been used to produce acid soil conditions. Some are only good for back yard production. Rotted oak leaves are used most commonly.

### OUR LEADING GIANT BLUEBERRY VARIETIES

|                                 |                                  |
|---------------------------------|----------------------------------|
| JUNE<br>(early, fast ripening)  | JERSEY<br>(Ideal, late variety)  |
| CONCORD<br>(early, midseason)   | WEYMOUTH<br>(earliest of all)    |
| STANLEY<br>(early, midseason)   | DIXI<br>(new midseason)          |
| RANCOCAS<br>(midseason, beauty) | PEMBERTON<br>(new midseason)     |
| RUBEL<br>(midseason, late)      | ATLANTIC<br>(new midseason late) |
|                                 | BURLINGTON<br>(new very late)    |

### MULCHING

On all but natural blueberry soil, a perment mulching should be applied soon as the plants are set. Such materials as salt hay, pine needles, straw, hardwood sawdust or oak leaves should be spread around the plants about six inches deep. With individual plants mulch should be applied over an area six to seven feet square.

### POLLINATION

It is generally conceded that all of the cultivated blueberries tend to a self sterile, therefore, three or more varieties should be planted to insure good pollination. Complete planting and growing instructions will be sent with your order.

Shipping Time:

Spring, March 15 to June 15; Fall, October 1 to December 1.

TULIPS

**PREMIER STRAWBERRIES**

**EVERBEARING (reliable heavy producers)**

Fruit in September from March and April planting of everbearing varieties. The New Streamliner as of wonderful flavor, large size healthy foliage and a great producer. Probably the most outstanding of all the Everbearing Strawberries. VARIETIES: Mastadon, New Streamliner, Superfection.

**SPRING PRICE LIST (only)**

**(for everbearing varieties)**

25 for \$1.50, 50 for \$2.75, 100 for \$4.50, 300 for \$12.50.

**FALL PRICE LIST (strawberries)**

Shipping Time: September 15 to December 1.

25 for \$1.40, 50 for \$2.25, 100 for \$3.65.

Everbearing varieties: 25 for \$1.90, 50 for \$3.45, 100 for \$6.25.

**BLACKBERRIES**

**ELDORADO**

Heavy yielding, bears young, almost full crop first year. Hardy, vigorous, disease resistant, heavy producers. Same price as raspberries.

**RASPBERRY PLANTS**

**LATHAM (red)**

Most popular red raspberry, Latham is the favorite of all varieties and is unexcelled as a midseason to late bearing raspberry. Thrives under a wide range of conditions and is particularly popular in colder sections because of extreme hardiness and ability to withstand very low temperatures. Latham produces a good crop in all localities. Fruit is large, firm and rich.

**NEW MORRISON (black)**

Outstanding new black raspberry is proving popular throughout raspberry growing areas. Very large, jet black fruit, is of fine flavor and considered less seedy than other sorts. Plants are strong, highly productive and have excellent disease resistance. Will thrive on any well drained soil.

**SUNRISE (new red)**

Bright, glowing red, and extra large berries make this new variety stand out above any other early red raspberry. This new raspberry ripens about 12 days before Latham. Withstands low temperature.

**INDIAN SUMMER**

**(new everbearing sensational red)**

Finest of all everbearing types yet introduced, bearing two

**STRAWBERRY PLANTS**

**SPRING PLANTING**

On strawberry plants our shipping season begins April 1 and continues until around June 1. We do not hold any plants in cold storage. Our plants are growing in the field when your order arrives.

**FALL PLANTING**

Remember we do not start shipping plants in the Fall until about September 15. Any time the ground can be worked before freezing, plants can be set.

**PREMIER early (or Howard 17)**

Premier strain is the early outstanding berry. The vigorous frostproof Premier strain has sired many of the best known varieties. They have a fine appearance and a uniform shape, medium bright red with a large green cap and a good shipper. Premier does well on any soil if well drained, makes runners freely.

**CATSKILL (midseason to late)**

Tremendously large fruit of good flavor, the most profitable midseason variety, Catskill is another Premier cross that has absorbed the best qualities of its parent, Premier growers consider Catskill the ideal variety for continuing a profitable fruit just as Premier is tapering off, and does equally well under practically all growing conditions.

**OUR LEADING STRAWBERRY VARIETIES**

|                                 |                                |
|---------------------------------|--------------------------------|
| PREMIER<br>(early)              | FAIRFAX<br>(early)             |
| HOWARD 17<br>(early)            | VERMILION<br>(early)           |
| CATSKILL<br>(midseason to late) | GREAT BAY<br>(early midseason) |
| ROBINSON<br>(midseason)         | SPARKLE<br>(midseason to late) |

**SPRING PRICE LIST (only)**

25 for \$1.10, 50 for \$1.75, 100 for \$2.75, 300 for \$7.75  
500 for \$11.50, 1,000 for \$21.00

crops a year. Fruit is of high quality, early season, heavier fruiting, hardier more disease resistant. A tremendous sensation because of its giant size, delicious taste and appealing beauty.

**SODUS (purple)**

Leading purple raspberry. Berries are large, firm, delicious, mild sugary flavor. Vigorous, productive and hardy.

**PRICE LIST (1 yr. No. 1 — all raspberries)**

Shipping Time: Same as Fruit Trees.

6 to 99 plants, 11c each; 100 and over, 9c each.

**PRICE LIST (2 yr. raspberries)**

2-Year Transplants, Fruiting Age.

3 for 95c, 6 for \$2.05, 12 for \$3.60, 25 for \$6.80, 50 for \$12.50.

**RHUBARB**

Shipping Time:

Spring, March 15 to May 15; Fall, October 15 to December 1.

**McDONALD**

Red variety, matures earlier, sweeter, and once planted last a lifetime.

**CANADA RED**

A brand-new red rhubarb, skin so tender it can be cooked with the stems.

Propagated by Division.

**PRICE LIST (rhubarb)**

2-Year divisions, 70c each.
